6) On 22.12.1947, Govt issued instructions re the allocation of officers in the Revised Scales of Pay. This GO refers to the filling up of vacancies consequent on the fixing of the ratio of I + II on appointments at 1:5. The GO applies to officers & not to officers. A copy of this GO is also forwarded herewith. On a similar reference from Sri Bagavandas Devasthanam, he was informed in this Office DO Letter No E 185 dt 7.4.50 that no GO was issued in 1947 to enable Govt to supercede officers of forward Community by officers of backward Communities. With this information, this may be submitted to the Confl Br

Allocation of Officials in the Revised Scales of Pay.

Issues orders *re* the ——.

READ—

Government Order No. E. 1304-84—R. & P. S. 26-44-7 dated 18th September 1945, issuing orders about the re-classification of appointments in the subordinate superior services of Government.

2. Government Order No. E. 5161-243—R. & P. S. 40-45-5, dated 28th February 1946, issuing certain modification to the classification of Class I and Class II appointments.

3. Government Order No. Fl. 2010-70—S. & A. 25-47-6, dated 21st September 1947, sanctioning the revision of scales of pay of the Non-Gazetted employees in the several Departments of Government.

4. Letter No. 2205—47-48, P. S. C., dated 4th October 1947, from the Public Service Commissioner for Mysore, in the matter.

ORDER NO. E. 4545-4618—R. & P. S. 37-47-2, DATED BANGALORE, THE 22ND DECEMBER 1947.

In the order of 21st September 1947, it was directed that "Except in the case of Departments where the numbers of I and II grade clerks have already been fixed in the existing scales, the ratio of I and II Division Clerks in all other cases should be 1 : 5 respectively. The graduates in the lower scales should be allocated against the I Division without affecting the officials already promoted. If the above ratio should work as a hardship in fixing the graduates in the I Division, supernumerary posts in the I Division may be temporarily created for them, keeping equal number of posts in the II Division vacant and the future recruitment should be so regulated that the ratio is brought down to the level of 1 : 5 at the earliest opportunity."

The Public Service Commissioner has reported that by following the above principle, Brahmin officials who are holding Class I appointments as per old classification even temporarily and also those who are holding other than Class I appointments, would automatically get into the I Division, several of them as supernumeraries with the result that there would be little or no scope for direct recruitment of Backward Community candidates to the I Division. Since Class II appointments are being filled up from the lists of candidates prepared in accordance with the Recruitment Rules, the minimum qualification being S.S.L.C. for such appointments, graduates will generally be excluded. But the Public Service Commissioner considers that the number of such officials in some departments is likely to be large and the allocation as contemplated in the Government order of 21st September 1947 if adhered to and adopted would necessarily affect adversely the communal composition of the non-gazetted ranks in such departments and accentuate the disparities already existing. In order to minimise the defects anticipated so as not to impair the object of the existing rules relating to communal composition in Public Services, Government are pleased to direct that, in modification of the principle enunciated in the Government order of 21st September 1947, the following procedure may be adopted in allocating the officials. For purposes of allocation, the I Division will correspond to Class I and the II Division to Class II according to Government Orders No. E. 1304-84—R. & P.S. 26-44-7, dated 18th September 1945 and No. E. 5161-243—R. & P.S. 40-45-5, dated 28th February 1946 read above:—

(*a*) All graduates permanently or temporarily appointed to Class I as per rules may be allocated to the I Division in the revised grade.

(*b*) Graduates and non-graduates who have been promoted to Class I in promotional vacancies may be assigned to the I Division. If such vacancies are of a temporary nature and have or are likely to cease shortly, the officials concerned should be allocated against the II Division.

(*c*) Backward Community non-graduates temporarily promoted to Class I as an interim measure due to non-availability of Backward Community graduates, may also be allocated in the I Division temporarily and absorbed later in that division, if Backward Community graduates are not forthcoming to replace them within a period of three years.

(*d*) If the number of I Division posts fixed is found to be in excess after allocating the above categories of officials, such excess posts may be filled up by promotion of graduates, if any, in the II Class appointments in accordance with the existing Rules of Recruitment. If no Backward Community graduates are available, Backward Community under-graduates may be promoted in the vacancies set apart for them, as an interim measure, pending the availability of Backward Community graduates, so as to keep up the proportion.

(*e*) If the number of graduates is found to be in excess of the strength of the I Division to be fixed, the surplus officials may be treated as supernumeraries in the II Division, they being allowed to draw the pay of the I Division Clerks as personal to them. They should be absorbed in I Division vacancies in accordance with the proportion fixed in the Recruitment Rules. If there are no Backward Community graduates, the vacancies intended for them should be filled up by direct recruitment, interim arrangement as indicated in item (*d*) being made for conduct of work.

The benefit of this allocation or the grade pay may not be extended to candidates appointed locally, either on account of candidates not forthcoming in response to advertisement or because of the temporary duration of the vacancies or to candidates appointed in contravention of the Rules of Recruitment. Such appointments should be terminated and the vacancies arranged to be filled up in accordance with the rules as expeditiously as possible. Pending such filling up, the candidates concerned may be allowed to draw only the revised grade pay of the class of appointments in which they are working at present.

Heads of Departments are requested to see that allocation and proposition statements are prepared and sent up to Government through the Comptroller within a fortnight.
